FIC Dealerships

# Mobile Meter PROGRAM

## 1 FIC DEALERSHIPS' TOOLS COME TO YOU

FIC Dealerships will come to your farm to complete the inspection of your planter meter units and recommend what repairs your planter needs.

## 2 YOU CHOOSE WHAT TO REPAIR!

You tell us what repairs are to be done and we complete them on site and run them on our new state of the art John Deere Meter Test Stand.

## Why this solution works for you!

### Improves your planter by:

- Gaining the highest possible singulation
- Most accurate seed spacing

### Improves your bottom line by:

- Increasing productivity and yield

### Improves uptime by:

- Pairing with FIC's John Deere Inspection

## ARE YOU READY FOR AN UPDATED PLANTER BUT NOT READY TO TRADE IN FOR A NEW ONE?

Ask about our conversion kits to upgrade your 2004 or newer planter to the new MaxEmerge 5 or MaxEmerge 5e, or Exact Emerge electric drive.

## MULTI-UNIT DISCOUNT

# SAVE UP TO 4% ON PARTS

FIC Dealerships is offering a multi-unit inspection program with discounts based on the number of units inspected. The more equipment your operation has inspected, the more the savings will add up, including up to 4% discount on parts.

Our certified technicians will thoroughly inspect your equipment to catch problems now that could stop you later in the field. Worn parts and fluid and filter changes at the time of the inspection can help you stay on top of proper maintenance.

# of Inspections	Parts Discount
1-2	0%
3+	4%

The multi-unit inspection program includes three levels. Each level is based on the number of inspections performed on your equipment. Machinery qualifying for this program includes the following pieces of John Deere equipment: row-crop tractors, 4WD tractors, planters, drills, combines, heads and platforms, windrowers, mower conditioners, balers and self-propelled sprayers.\*

Inspections & repairs qualify for 180 days or 270 days No Payment/No Interest financing when you use your Multi-Use Account.\*

\*Some restrictions apply. See dealer for details. Program ends 9/15/19.

## John Deere Operations Center

John Deere Operations Center is a set of online tools that enable access to farm information anytime, anywhere and is compatible with computers, tablets, phones and other internet capable devices.

Tools in the Operations Center provide growers and their partners with the ability to analyze, edit, and make collaborative decisions from the same set of information to optimize logistics, plans and direct in-field work, increasing yield and profitability. Don't wait, take advantage of the current promotional period that the John Deere Operations Center is currently in. Utilize these tools for no charge.

## MyAnalyzer™ App

- Utilize documented map layers to ground truth recorded data and for insights into the effectiveness of farming practices.
- Pull up documented map layers on the spot or easily send them via text or email to another person to aid in conversations with advisers and landlords.
- Access summary information of product performance as it is being harvested to aid in seed selection decisions for next year.

## MyOperations App

- Improve logistics, efficiency, and productivity through knowledge of current acres worked, fuel levels, and idle time.
- Enhance confidence - the job is being done through quality metrics.
